Executive summary

1.1 The Future of Cryptocurrency Investing and Assets Trading Over the past few years, cryptocurrencies proved to be the fastest growing asset class and offered phenomenal rewards for those who decided to invest. Long term investors, as well as day traders, benefit from the unique opportunities offered by the most promising market we have ever seen. However, investments into cryptocurrencies and assets require time, specific knowledge, analytical skills, as well as professional tools to be successful. The difficulty is the main reason why most people simply miss tremendous opportunities offered by a booming market. This was the case until the Decenpool was introduced.

1.2 Decenpool is not a collective investment scheme. Rather it is a platform for investors and traders who are looking to utilize the most advanced trading tools and technology, as well as the combined wisdom of the community in order achieve maximum returns in cryptocurrency markets. In its infancy, Decenpool has experienced rapid changes and conceptual upgrades from the moment when the first idea of a peer-2-peer digital asset platform was disclosed by the founder, Mr. Oliver Murray.

Technological discoveries, as well as ambitious scalability opportunities have arisen which brought Decenpool to a completely new level. By way of its unique platform which operates differently to existing traditional investment structures, like funds, Decenpool is about to disrupt investment management industry and become one of the leading players on the cryptocurrency market by introducing the most complete infrastructure for investors and traders which includes:

- Decenpool peer-2-peer Asset Platform – the essence and core of the Decenpool infrastructure.

It implements a successful business model and disrupts the traditional investment management industry. Investors can easily browse through hundreds of trading Models (strategies), provided by professional cryptocurrency traders and in effect “follow” the ones matching their goals. All members can get a clear picture of current and past performances of each trading Model.

By following, the platform does not allocate monies to anyone but rather implement the person own decision whereby the platform automatically replicates all trading activity of a chosen Model directly into investors’ accounts at Decenpool, providing a unique peer-2-peer experience along with the safety of funds.

“It’s like a thousand of traders all working for you!”

Decen Intelligence Portal – the most complete educational resource and knowledge base built by traders for traders; featuring latest market news, unique content created by leading crypto experts aimed at educating the community, sharing trading ideas and discussing latest market developments.

It will include Crypto trading 101, explaining the essentials of cryptocurrency investing, as well as video tutorials to help new investors. For experienced traders, advanced trading tutorials, strategies, and technical analysis from industry professionals will be included.

The Decen Intelligence Portal will become the largest, community-oriented and continuously growing knowledge resource for investors, as well as a one-stop place to receive the latest information from top crypto-related media outlets, live quotes, charts and latest analysis – everything that you may need to become successful in cryptocurrency trading.

Liquidity aggregation / Algorithmic trading– We aim to establish direct API bridging with cryptocurrency exchanges from all over the world. By aggregating liquidity from top cryptocurrency exchanges, Decenpool allows all users to benefit from trades executing at the best possible rates. Such offerings, previously available only for institutional clients, provides internal liquidity with significantly reduced pricing on all trading activities occurring on the Decenpool Platform.

Aggregated liquidity offers unlimited opportunities for further expansion:

1. Market making and deal matching
2. Options/Binary options market making
3. Algorithmic trading strategies (arbitrage, HFT trading.)

The Decenpool Trading Terminal – An advanced trading platform, adapted to the needs of traders using various strategies ranging from day trading and spread trading, to long term investments. Experience brought from one of the leading investment banks – Saxo Bank, the Decenpool team has unique knowledge on how the ultimate trading solution should operate. Aggregated liquidity offers Decenpool members access to top crypto-exchanges and trade all possible coins from one single account.

The Trading Terminal creates unique opportunities for its users, offering an aggregated Level 2 order book from combined quotes of multiple vendors and provides essential features such as:

1. Advanced charting software
2. Aggregated market depth with combined liquidity from top exchanges
3. User friendly interface with advanced functionality
4. Advanced trading tools and algorithms such as EVM(ETHEREUM VIRTUAL MACHINE) and Iceberg orders
5. 24/7 customer support/Live chat

1.3 Summary Backed by a strong team of industry professionals, Decenpool is on a clear path to become an ultimate solution for investors and cryptocurrency traders. It will cover every aspect related to cryptocurrency trading, from education, market overview and trading ideas to the unique concept of p2p asset trading, liquidity aggregation and ultimately the most advanced trading station ever.

Project Overview

DecenPool is a Yield Mechanism Based Passive Earning Program That Works Under DAO - Decentralised Autonomous Organisation And An AUM -Asset Under Management Team.

Our trading professionals work in 10 types of trading categories and possess expertise in generating assured minimum daily returns. Categories like Day trading, Commodities, Stock exchange, Forex, Equity Trading, Derivative Trading, Margin trading, and Crypto trading.

We are introducing **Decen Labs**, a dedicated panel of developers and blockchain minds to build market-oriented crypto products and trading tools that generate high-volume use cases and revenue for the project.

Integrated with Binance Smart Chain Smart Contract Libraries, ERC-20 Blockchain Algorithms, And Solidity Server.

Products & Services

Decenpool hosts a dedicated panel called, Decenlabs. A team to develop Apps and services on crypto and other trading categories. In Phase 1 we develop below things.

- **Staking Program:** This is a decentralised smart contract-based staking program that allows users to stake BUSD to earn passive income. Distributed with affordable packages, auto-credit features, and instant withdrawals.
- **DECEN Token (DECEN):** Decen token is a BSC-based native token of the Decenpool ecosystem with a total supply of 100 million total, the token has a community and market-centered economy.

Tokenomics

- **Total Supply: 10,00,00,000 DECEN**
 - **Presale: 25%**
 - **Liquidity: 20%**
 - **Airdrop : 3%**
 - **Team: 2%**
 - **Staking Program: 21%**
 - **Development: 29%**
-
- **Launchpad:** This is our 3rd Product, a launchpad platform to list verified crypto and trading projects, assets, airdrops, ICO's and IPO's.
 - **Decenpool Blockchain:** Building own blockchain network based on ETHEREUM VIRTUAL MACHINE (EVM). The Blockchain will be tokenized with DECEN tokens, Wrapped tokens, and smart contracts.
 - The DECEN token will be built on this blockchain too and listed on standar centralised exchange
 - **Travel & Utility Portal:** This is a blockchain-based utility portal to book travel tickets and make utility payments using the DECEN token or selected crypto.
 - **Crypto mining:** Decenpool Mining app will be a blockchain server to mine DECEN tokens on the mobile app and web app devices. Everyone can be a miner and win mining rewards.
 - **NFT Hub:** A Land and Art-based NFT marketplace in Ethereum, Binance, and Decenpool blockchain. This product will also include Web3 games and Metaverse assets.
 - **Hybrid Wallet & Exchange:** A Hybrid wallet to manage Crypto, stocks, and commodity assets all in one place. Transfer funds securely, track investments and

charts. This app also allows to app to trade crypto, Crypto, stocks, forex, and commodity assets all in one place.

- **Metaverse:** In futurism and science fiction, the metaverse is a hypothetical iteration of the Internet as a single, universal and impersive virtual world that is facilitated by the use of virtual reality (VR) and augmented reality (AR) headsets.

In colloquial use, a metaverse is a network of 3D virtual worlds focussed on social connection. The term "metaverse" originated in the 1992 science fiction novel Snow Crash, as a portmanteau of "meta" and "universe". Metaverse development is often linked to advancing virtual reality technology due to increasing demands for immersion.

Recent interest in metaverse development is influenced by Web3, a concept for a decentralized iteration of the internet. Web3 and The Metaverse have been used as buzzwords to exaggerate the development progress of various related technologies and projects for public relations purposes. Information privacy, user addiction, and user safety are concerns within the metaverse, stemming from challenges facing the social media and video game industries as a whole.

- **Web 3 Games:** This is a sophisticated web3 gaming platform that offers users fun and play-toearn games. Third-party and exclusive games will be hosted on a regular basis with contests and rewards. Decen gaming will stand up to the best web3 gaming experience with a large gamers community of streamers and players.

DecenPool Blockchain

World's Biggest Trading, Utility and Travel Industry-Driven Blockchain

Decenpool Finance is the first & only trading-focused cryptocurrency with its own 3rd Generation Blockchain On EVM (Ethereum Virtual Machine)

EVM is the part of Ethereum that handles smart contract deployment and execution. Simple value transfer transactions from one EOA to another don't need to involve it, practically speaking, but everything else will involve a state update computed by the EVM. At a high level, the EVM running on the Ethereum blockchain can be thought of as a global decentralised computer containing millions of executable objects, each with its own permanent data store.

Market Analysis

With the enormous development of the blockchain technology, new opportunities are arising in the field of investing. Crypto markets are borderless, open 24/7, and offer huge potential for growth. A rapidly growing number of initial coin offerings (ICO) has led to more than 2,000 new cryptocurrencies being created and traded on daily basis, leading to high returns for many investors. In order to fully realize market potential, here is the market capitalization of the top technology based companies listed on the Nasdaq and NYSE, compared to the market capitalization of cryptocurrencies:

Alphabet – \$717B USD	Total Crypto Market - \$200B USD
Microsoft – \$645B USD	Bitcoin - \$105B USD
Facebook – \$516B USD	Ethereum - \$30B USD
Alibaba Group – \$480B USD	Ripple - \$8B USD

Platform specifications

At Decenpool we aim to develop an easy to use, secure and efficient solution for both investors and traders. Decenpool will deliver the most user-friendly, yet advanced peer-2-peer digital asset platform. Below, we provide concept specifications of the platform as well as a brief explanation of the core features

Registration: All users must be registered on the platform to carry out any activities. Registration is a standard process through email.

Decenpool Account and Wallet: All users of the platform will have their own unique wallet created automatically. After registration with Decenpool platform, each user shall have a dex wallet. By depositing BUSD, it is possible to upgrade packages. However, only DECEN token can be used for following a trading strategy.

Entry fee : There is a 0 entry fee that applies every time user deposits funds to his account. This commission accrues to the DECEN Asset Contract increasing the value backing DECEN tokens.

Model Traders: A Model Trader is a user who created a trading Model (strategy) in Decenpool platform. From that moment, tracking of all trading activity starts and the Model becomes available for following.

Investors: The investor is a user who is following a chosen Model in order to benefit from the profitable trading of a Model Trader. Each investor can follow up to 20 different trading strategies.

Users Privacy: No personal user data is available to other users or moderators working on the platform. This list includes but is not limited to: emails, wallet IDs, or funds available to users, as well as direct links to accounts in social networks, even if they are specified in the user's form. All users can remain completely anonymous

Speed of Execution: At the initial launch, we will offer only manually traded Models. As soon as our API becomes "bullet-proof" tested – we shall launch algorithm trading strategies as well. By implementing smart contracts and technology, we will automate the digital asset trading processes, bypass trust and insecurity issues while making investments transparent, simple and secure as they are supposed to be.

Architecture

The Decenpool digital asset platform infrastructure includes four main elements: • The Investors account section, which provides wallets, portfolio overview and statistics.

- The Marketplace of trading Models, where each investor can search and compare all the strategies provided by Model Traders. From here, investors select the most suitable trading Models and can start following.
- Traders Dashboard, which allows traders to create a Trading Model (strategy) available for following. It includes a trading strategy description as well as detailed information about TOP holdings. It also tracks performance by day, month and year, and features a snapshot of trading statistics. The dashboard represents detailed trading history and allows you to export various reports.
- The Decenpool trading accounts section is used for replicating trading activity from the Models. Decenpool will use API connections, smart contracts, and aggregated liquidity to execute and mirror trades, distribute requested funds and provide detailed performance data to users.

Decen Intelligence

At Decenpool, we aim to produce a one-stop solution for cryptocurrency and assets traders and investors. Since the infrastructure of Decenpool is being built by investment industry professionals - importance of timely market data has not been overlooked.

Apart from a one of a kind peer-2-peer digital asset platform, we aim to introduce the largest resource for education, news, trade ideas and market analysis about the cryptocurrency market. We call it – **Decen Intelligence**.

Decenpool strongly believes in the importance of education when it comes to cryptocurrency. There is a lot to learn when it comes to technology, and it changes at a pace that many cannot keep up with. We believe it is partly our responsibility to educate our users, as we are offering them a vehicle to invest their hard earned money.

While investing in cryptocurrency is always a risky endeavour, there are certainly plenty of rewards to be gained as well, and that's why we believe offering a large portal for our users to grow their knowledge of the cryptoindustry is very important. We seek to share the knowledge and best practices with our community. Leading cryptoexperts, researchers and traders will contribute to the Crypto Intelligence hub, giving Decenpool a unique ever-growing knowledge base, suitable for both beginners as well as professional traders.

The Decen Intelligence Portal will essentially include:

- An integrated news feed from multiple resources
- Blog posts and articles from reputable cryptocurrency traders and analysts
- Trade ideas with technical analysis and strategies from professional traders
- A crypto academy, which offers education, 101 and video tutorials explaining the A to Z about cryptocurrency and trading
- The most complete glossary for crypto terminology
- A link library, the most comprehensive collection of important cryptocurrency links and resources
- Community, where investors and traders can interact and discuss the latest market developments and trading ideas

The DECEN Token

The DECEN token is an BEP20 token and a smart contract system built on the Binance blockchain, and designed to be used by members within the Decenpool platform. Following this standard, Decenpool tokens are easily transferable between users and platforms using BEP20 -compatible wallets and can be smoothly integrated into exchanges.

A maximum of 10.00,000.000 DECEN tokens will be generated, including 25% to conduct a PreICO, and 20% .000.000 to liquidity, Another 2% will be shared between the founders of the Decenpool platform and locked in a smart contract for 3 months, 50% will be used for development and staking program, while the rest will be generated for advisory, bounty and PR pools.

DECENPOOL is actively working to list DECEN tokens at the leading crypto exchanges. DEXEN will become traded on crypto exchanges shortly after the ICO.

Conclusion

We are already in development mode, and in November 2022 we will release a MVP version of the Staking platform where anyone can start passive income

We are in active communication with cryptocurrency funds and private traders in order to form an initial pool of professional Model Traders.

We have a solid marketing strategy which will ensure a successful launch of the platform in Q1 2023.

We know exactly what is needed for both investors and traders. We will create synergy and a mutually beneficial investment environment.

We provide simple logic behind the value creation for the DECEN token. It's easy to understand and evaluate its future growth.

Unlike many ICO campaigns, we are not just creating another useless cryptocurrency in an already crowded market. We provide the ability to become a member of the successful platform and benefit from the token price growth.

We have an excellent, competitive team creating a revolutionary product and will cope with any difficulties down the road
