Decen Pool Labs

Opportunity

Decenpool Asset Management Private Limited, Licensed and Incorporated under the Companies Act 2006 as a private company, that the company is limited by shares, and the situation of its registered office is in England and Wales, Owned by Mr. Oliver Murray.

Backed by a strong team of industry professionals, Decenpool is on a clear path to becoming the ultimate solution for investors and traders. It will cover every aspect related to cryptocurrency trading, from education, market overview, and trading ideas to the unique concept of AUM trading, liquidity aggregation, and ultimately the most advanced trading station ever.

In the initial stage DecePool has experienced rapid changes and conceptual upgrades from the moment when the first idea of a digital asset platform was disclosed by the founder Oliver Murray. Technological discoveries, as well as ambitious scalability opportunities, have arisen which brought decenpool to a completely new level.

Mission and Vision

Mission

- Engage in all types of trade with a focus on quality services to customers and professional competencies.
- Develop new markets and products and expand business in Industrial Raw Materials, Commodities, crypto, and Engineering Equipment and Projects.
- Serve as an effective instrument of public policy and social responsibility.
- To provide our clients with competitive and premium quality equipment and services.
- To strengthen the acceptability of our brands with clients and contractors throughout the project.
- To seek growth through new ideas, new products, and strong partnerships. To set offices or develop products in the market closer to our customer base.
- To recruit, train and retain the best talent in the industry.
- To continuously improve our business processes leading to prompt and efficient sales and after-sales services.

Vision

- Be a successful International experts trading company, lean, flexible, and capable of providing total integrated services to customers in the changing environment.
- To be the experts managed trading company of choice of the customers, principals, and investors through dedicated professionalism, therefore attracting the best employees.
- Bringing inspiration and being a model for companies who are willing to reach their dreams.

Products & Services

Decenpool hosts a dedicated panel called, Decenlabs. A team to develop Apps and services on crypto and other trading categories. In Phase 1 we develop below things.

Staking Program: This is a decentralised smart contract-based staking program that allows users to stake BUSD to earn passive income. Distributed with affordable packages, auto-credit features, and instant withdrawals.

DECEN Token (DECEN): Decen token is a BSC-based native token of the Decenpool ecosystem with a total supply of 100 million total, the token has a community and market-centred economy.

Tokenomics

Total Supply: 10,00,00,000 DECEN

Presale: 25%

Team: 2%

Liquidity: 20%

Staking Program: 21%

Airdrop : 3%

Development: 29%

Products & Services

Launchpad: This is our 3rd Product, a launchpad platform to list verified crypto and trading projects, assets, airdrops, ICO's and IPO's.

Decenpool Blockchain: Building own blockchain network based on ETHEREUM VIRTUAL MACHINE (EVM). The Blockchain will be tokenized with DECEN tokens, Wrapped tokens, and smart contracts.

The DECEN token will be built on this blockchain too and listed on standar centralised exchange

Travel & Utility Portal: This is a blockchain-based utility portal to book travel tickets and make utility payments using the DECEN token or selected crypto.

Crypto mining: Decenpool Mining app will be a blockchain server to mine DECEN tokens on the mobile app and web app devices. Everyone can be a miner and win mining rewards.

NFT Hub: A Land and Art-based NFT marketplace in Ethereum, Binance, and Decenpool blockchain. This product will also include Web3 games and Metaverse assets.

Hybrid Wallet & Exchange: A Hybrid wallet to manage Crypto, stocks, and commodity assets all in one place. Transfer funds securely, track investments and charts. This app also allows to app to trade crypto, Crypto, stocks, forex, and commodity assets all in one place.

Metaverse:

In futurism and science fiction, the metaverse is a hypothetical iteration of the Internet as a single, universal and impersive virtual world that is facilitated by the use of virtual reality (VR) and augmented reality (AR) headsets. In colloquial use, a metaverse is a network of 3D virtual worlds focussed on social connection.

The term "metaverse" originated in the 1992 science fiction novel Snow Crash, as a portmanteau of "meta" and "universe". Metaverse development is often linked to advancing virtual reality technology due to increasing demands for immersion. Recent interest in metaverse development is influenced by Web3, a concept for a decentralized iteration of the internet.

Web3 and The Metaverse have been used as buzzwords to exaggerate the development progress of various related technologies and projects for public relations purposes. Information privacy, user addiction, and user safety are concerns within the metaverse, stemming from challenges facing the social media and video game industries as a whole.

Web 3 Games:

This is a sophisticated web3 gaming platform that offers users fun and play-to-earn games. Third-party and exclusive games will be hosted on a regular basis with contests and rewards. Decen gaming will stand up to the best web3 gaming experience with a large gamers community of streamers and players.

DecenPool Blockchain

World's Biggest Trading, Utility and Travel Industry-Driven Blockchain

Decenpool Finance is the first & only trading-focused cryptocurrency with its own 3rd Generation Blockchain On EVM (Ethereum Virtual Machine)

EVM is the part of Ethereum that handles smart contract deployment and execution. Simple value transfer transactions from one EOA to another don't need to involve it, practically speaking, but everything else will involve a state update computed by the EVM. At a high level, the EVM running on the Ethereum blockchain can be thought of as a global decentralised computer containing millions of executable objects, each with its own permanent data store.

- Build Tokens
- Build Smart Contracts
- Build Earning Pools
- Build dApps
- Build NFT's
- Build DeFi Services
